

FOR IMMEDIATE RELEASE

The Maine Chapter of Infragard, a partnership between the Federal Bureau of Investigation and the private sector to protect our nation's critical infrastructure, will be holding its fall meeting in Freeport, Maine on October 16th, 2008 at 8:30 AM.

The overall theme for this meeting will be emergency & disaster preparedness. Key speakers include the manager of the Continuity of Operations Plan for the FBI's Boston Field Office and an official from the Maine Centers for Disease Control & Prevention. Topics covered will include planning for the "worst-case" scenario from multiple perspectives... from law enforcement to a public health emergency and how your organization can be affected.

People interested in the Infragard program are encouraged to attend. This meeting is closed to the media.

To ensure that we have the appropriate quantity of materials available, please register by October 14, 2008. Registration can be accomplished thru the Infragard Maine website at www.infragard-me.org Once registered, you will receive directions to the conference center in Freeport.

About Infragard:

InfraGard is an information sharing and analysis effort serving the interests and combining the knowledge base of a wide range of members. At its most basic level, InfraGard is a partnership between the Federal Bureau of Investigation and the private sector. InfraGard is an association of businesses, academic institutions, state and local law enforcement agencies, and other participants dedicated to sharing information and intelligence to prevent hostile acts against the United States. InfraGard Chapters are geographically linked with FBI Field Office territories.

About Infragard Maine:

Infragard Maine is an official chapter of the Infragard National Member's Alliance and was organized in 2004. Under the Infragard program, Infragard Maine is linked to the FBI's Boston Field Office Infragard Program.
